The airstrips found in Area 4 are: Mana West, Chikwenya, Dandawa

AREA 5 – HARARE

FLYING CIRCUIT

IMPORTANT

Taking distances between destinations into account, flying in daylight hours plus road transfers to/from camps, we use the following timings as a guideline so please plan arrangements or connecting flights accordingly:

Ex Victoria Falls (VFA) to Hwange:

January to December – only one flight per day at 14:30 (PM)
April to November – two flights per day, one at 08:30 (AM) and another at 14:30 (PM)

Ex Hwange (MLO) to Victoria Falls (VFA):

January to December – only one flight per day at 10:10 (AM)
April to November – two flights per day, one at 10:10 (AM) and another at 16:15 (PM)

Ex Harare to Mana Pools – April to November only at 14:30 (PM)
Ex Mana Pools to Harare – April to November only at 08:30 (AM)

- Should guests be travelling to Kariba / Mana Pools area from VFA you will need to depart on the 08:30 flight ex VFA
- Should guests be returning to VFA from Kariba / Mana Pools area, they will only get into VFA around 17:00. Please do not book afternoon activities in Victoria Falls for this day.
- Departure times for inter-camp transfers i.e. between Hwange and Mana Pools, or vice versa, will be advised in camp the night prior.

There are no restrictions to using seat rates on our Wilderness Air flying circuits. Third party arrangements in an itinerary may be booked through Wilderness or direct with the supplier. All guests joining the Natureways Canoe Trail need to overnight at Ruckomechi Camp or Little Ruckomechi the night before, and we recommend an overnight at the camps after the canoe safari as well. Guests cannot connect directly to Ruckomechi Camp, Little Ruckomechi or Chikwenya from Victoria Falls ex scheduled commercial flights, nor from Ruckomechi Camp, Little Ruckomechi or Chikwenya back to Victoria Falls for onward scheduled commercial flights, as timings do not allow for the connections. In these instances, an overnight in Victoria Falls will be required. For ease of access to Ruckomechi Camp, Little Ruckomechi or Chikwenya, our recommendation is to consider Harare as an entry or exit point. Access to Area 3 (Kariba) and Area 4 (Mana Pools) on seat rates per our circuit is only possible between April and November, the operational season of our Mana Pools camps.

Circuit flights to and from the Kariba area in peak season (between April and November) may include a stop for refuelling at Kariba Airport. Note that this is a technical stop only.

All flights between Hwange, Kariba and Victoria Falls during the off-peak period (late November to end March), will be operated on a sole use basis only, subject to availability. Pricing is on request as the published circuit seat rates will not apply. Note that the aircraft will stop in Kariba and onward connecting road, boat and/or air transfers between Kariba and Bumi Hills, Musango, Changa, Rhino Safari Camp or House Boats must be booked accordingly. Flights from Kariba to Victoria Falls are approximately two hours long and subject to weather conditions. Morning or afternoon departures may be delayed as a result of low cloud cover in this area and thus scheduled international flights ex Victoria Falls should not be booked on the same day. We recommend guests overnight in Victoria Falls the night prior to international/regional flights.
