FIRST-HAND FEEDBACK

Destination:	Karangoma Camp, Okavango Delta (Wild Expeditions)
Participants:	Kim Meecham
Suits which type of traveller:	Adventure/Classic camp traveller
Recommended activities:	Mokoro when water levels allow Boat cruises when water level allows Walking – again, when seasons allow Morning and afternoon game drives
Cuisine:	Each dish was a delightful blend of simplicity and taste that left a lasting impression.

<p>Highlights during visit/stay:</p>	<p>Helicopter transfers to/from Vumbura Airstrip</p> <p>This will be a good starter camp – clean lines with adequate amenities. Décor is based on the baskets designs from the local villages. The staff are wonderful, their genuine kindness and attentiveness truly shine, making the experience all the more welcoming.</p> <p>What was great to see was the growth available to the local villagers working with CLAWS (Communities Living Among Wildlife Sustainably) – case in point Mosomela was part of the construction team. Owners saw his potential and he is now employed full time as a training tracker due to his skill level as a villager who once poached; he is now a conduit to the local villages.</p> <p>Legendary guides, with many years of experience and a wealth of knowledge when engaging.</p>
<p>Caveats:</p>	<p>This will be a seasonal camp where only certain activities are possible should water levels allow. Winter will no doubt showcase the elephants, roan, sable and other plains game.</p>
