Usawa Northern Hills – Change In Airstrip

A decision has been made to change from Kogatende Airstrip to Lobo Airstrip for Usawa Northern Hills, effective immediately. This switch was based on the driving distance from Lobo airstrip to the camp being shorter, much pleasant and less busy, about two to three hours' drive, with game drive stops on the way. As such, the Lobo move will provide a much enjoyable arrival into camp.

Wayo Little Green Camp Locations

Please note that Little Green Camp no longer operates in the Central Serengeti, and will only be operational in the Northern and Southern Serengeti.

This adventurous camp is able to move more frequently, more closely following the movements of the herds as they circle through the Serengeti. Its locations are deeper into the remote parts of the ecosystem and away from the crowds.
