ZIMBABWE NEWS & UPDATES

GENERAL UPDATES

Zimbabwe Visas New — Digital Arrival Procedure

We recently shared information regarding the introduction of the online Zimbabwe Immigration Declaration Form. At the time, its use was optional as it was part of a pilot phase, and travellers could still complete paper forms upon arrival.

As the pilot phase comes to an end and the online system begins to replace the paper forms, please inform your guests accordingly. Guests should now be encouraged to complete the form online prior to travel. Please note the form must be completed by the traveller themselves, as it contains sensitive personal information and cannot be completed by a third party. *This is not an online visa*, but a digital replacement for the paper entry form traditionally filled out on arrival.

The form can be accessed [here](#).

Travellers are encouraged to complete the form **online before travelling** to ensure a smoother arrival process.

Please contact your Travel Designer for further details.

Credit Card Payments

While credit card payment is now available at all Wilderness Zimbabwe camps, electronic facilities can be limited elsewhere. Guests should rely primarily on debit cards (Visa or MasterCard), as these are the most readily accepted form of electronic payment across the region.

Please note that Diners Club and American Express are generally *not* accepted
