YOUR ANGEL OF HOPE

Making a Difference, One Coffee Pod at a Time

The handcrafted angel you've received today represents something greater than a recycled coffee pod transformed into a work of art. It's a symbol of hope for animals in need across the Matzikama region of South Africa's West Coast.

About the Angel Project

In an area where there is no Society for the Prevention of Cruelty to Animals (SPCA) and veterinary care is scarce, the Angel Project stands as a lifeline for thousands of animals. Based in Vredendal, this small but dedicated non-profit organisation works daily in lower-income communities, providing essential veterinary care, daily feeding programmes, shelter made from recycled materials, and education on responsible pet ownership.

Recycling with Purpose

These Angels of Hope are crafted from Nespresso coffee pods – turning waste into a second chance. Each angel sold provides food, medical care, and hope for animals who would otherwise be neglected.

Your Impact

By choosing to travel with us, you've become part of this mission.

Every guest who experiences the beauty of Cape Town with Wilderness helps us support the Angel Project's important work. Your journey is creating a ripple of positive change – for animals, for communities, and for a future that is a little bit kinder.

Thank you for helping us support those in need.

The Angel Project is a registered Non-Profit Company (NPC 2023/113831/08) based in Vredendal, Western Cape.
