MOMBO AND LITTLE MOMBO

UNIQUE SELLING POINTS

Mombo and Little Mombo

- Arguably one of the **finest wildlife destinations in Africa**, and undoubtedly the best year-round game-viewing destination in Botswana.
- Situated just after the Okavango River splits into its primary channels. The nutrients deposited by the river make this the **most fertile area in the Delta**, attracting unusually high concentrations of plains game and their predators – dominated by the cats.
- **Private traversing** rights in the legendary Moremi Game Reserve,
- **Year-round abundance.** During the annual inundation, a natural seasonal containment of the wildlife is confined within this area. In summer the fertile plains teem with antelopes and their newborns, attracting vast numbers of predators.

MOMBO CAMP LAYOUT

A savanna landscape with two elephants grazing in a field, viewed from a wooden deck with lounge chairs and a pool. The scene is framed by trees and a blue sky with light clouds. The deck has several lounge chairs, some with metal bases, and a small pool of water. The elephants are in the middle ground, grazing on the grass. The background shows a line of trees under a bright sky.

Everything. Staff were all incredibly friendly, helpful and efficient. It really felt like an amazing luxury experience and a home away from home, all at once. It was perfect from start to finish.
