BISATE PURPOSE

# A conservation tourism first

The vision of Bisate is to be a model of sustainable hospitality and conservation in Rwanda. Its pioneering reforestation and rehabilitation projects mean each guest partners with us in contributing to biodiversity initiatives and local community upliftment, making a far-reaching positive impact on an iconic endangered species: the mountain gorilla.

## ACCOMMODATION

# Sublime Forest Villas

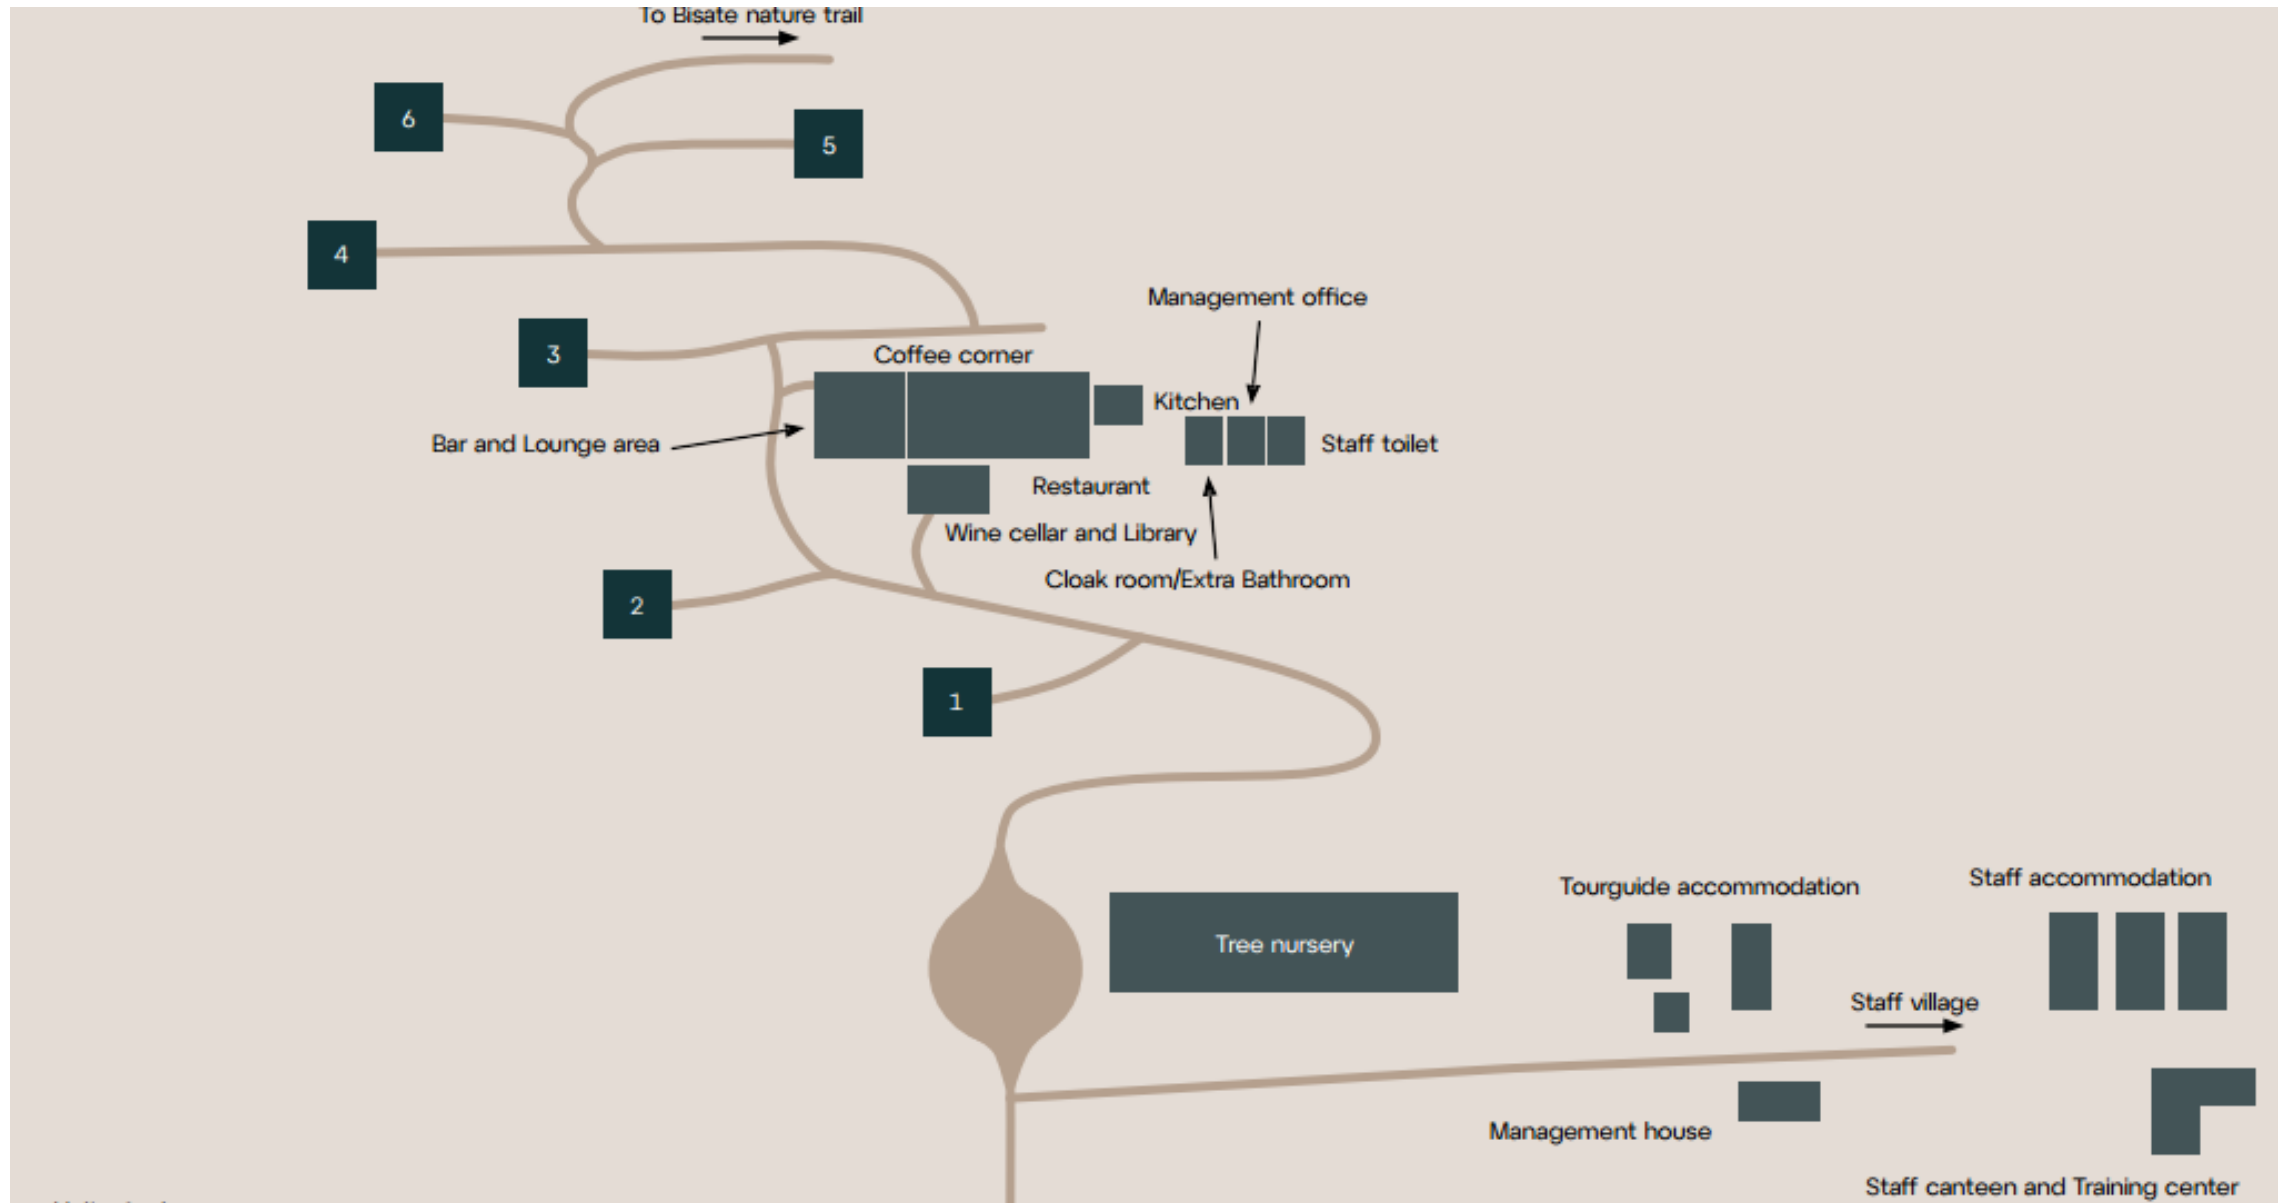

- Since opening in 2017, luxurious Bisate has been awarded, and continues to receive, numerous accolades for its visionary impact and sublime accommodation.
- Both the architecture of the lodge, and the interiors of the six exquisitely appointed en-suite Forest Villas mindfully embody the traditions of Rwandan royalty.
- Bisate's superior hospitality is inspired by its exuberant staff, cultural interactions and its sophisticated, locally sourced cuisine.

A photograph of a stone path leading through dense green foliage to a small building with a thatched roof. The path is made of irregular stones and is flanked by tall grasses and various plants. The building is partially obscured by the vegetation. The overall scene is lush and natural.

A magisterial example of what can be achieved at the top end of socially and environmentally conscious tourism. From the warmth of the "instant-family" staff, unique architecture, and inventive food experiences, to the thoughtful and luxurious surrounds – every moment of the stay is memorable. The contrasts, like the striking volcanic vistas and the gentle laughter drifting up from the villages in the evenings, are deeply moving. If you had to exchange your entire bucket list for one thing - this should be it.
