

WILDERNESS

# LITTLE RUCKOMECHI

## UNIQUE SELLING POINTS

# Little Ruckomechi

- Set on the banks of the great Zambezi River in a spectacularly scenic private reserve, the camp offers the finest game viewing experience in the Mana Pools area, thanks to the combination of its unparalleled exclusivity within one of the most productive wildlife zones of Mana Pools – the riverine belt.
- Our exclusive, diverse and flexible adventures occur on the river, across the floodplains and in the woodlands, including game drives, river cruises, canoeing, catch-and-release fishing and guided nature walks.
- The concession is home to large concentrations of buffaloes and elephants, while predators such as lions, wild dogs, leopards and cheetahs are often sighted. A range of antelopes can be seen on the surrounding plains, and hippos and crocodiles crowd the river.
- Birdlife is superb. Bee-eaters nest in the riverbanks and numerous local specials, like collared palm-thrush and racket-tailed roller, are present.

LITTLE RUCKOMECHI PURPOSE

# Your safari makes an impact

With the increasing threat of poaching and human encroachment, our presence alongside Mana Pools National Park is an important buffer, expanding this haven for the Lower Zambezi's flora and fauna.

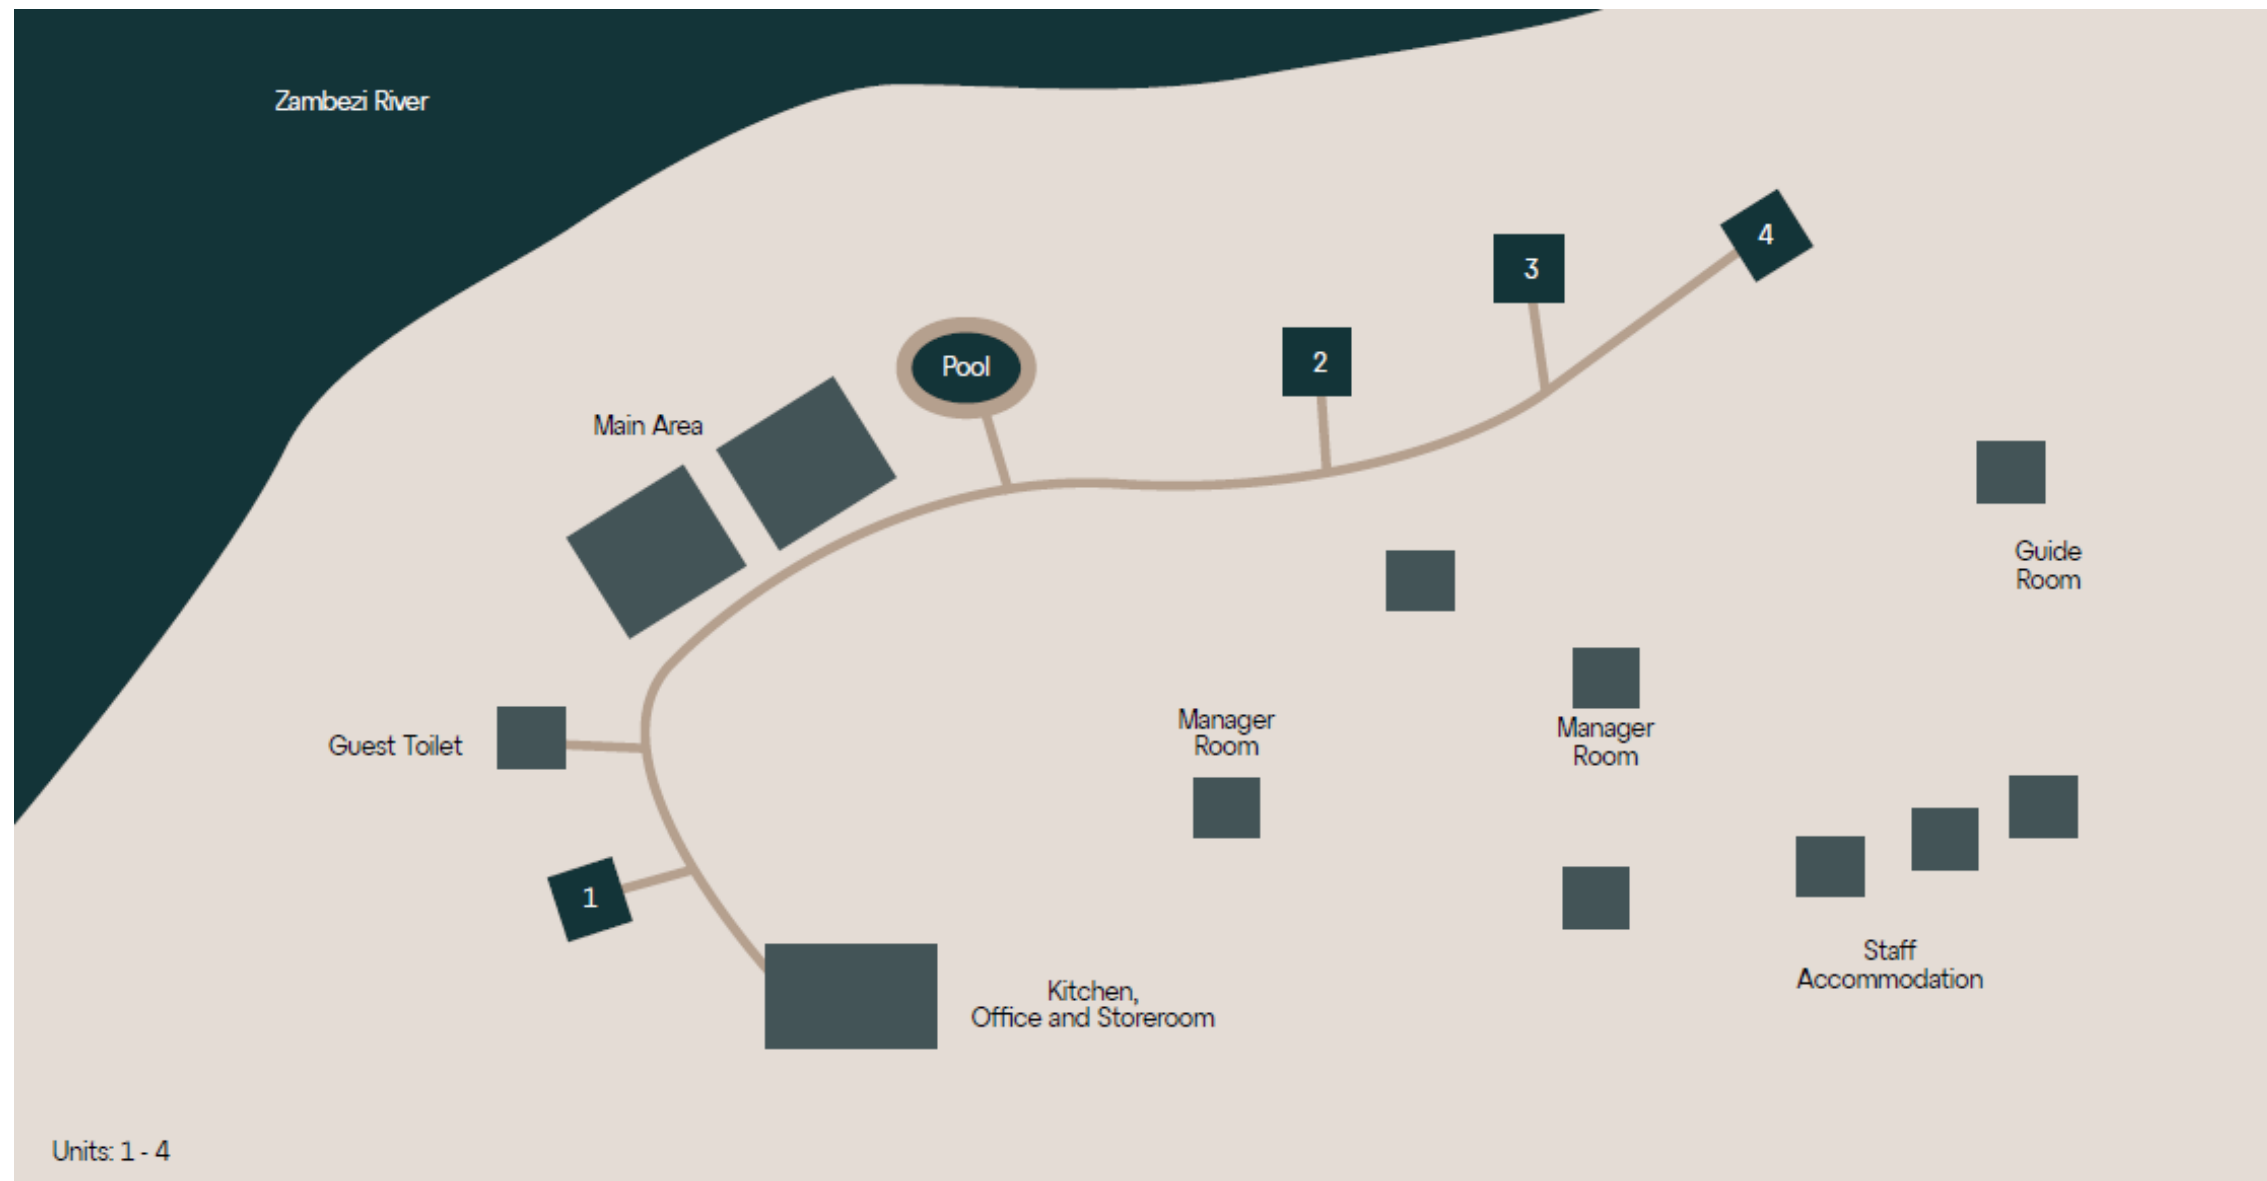

## ACCOMMODATION

# An intimate camp experience

- Perfect for small groups or families, Little Ruckomechi is a beautiful and intimate camp with just three (or four for private bookings) airy and elegant tents, delightfully showcasing the romance of the bygone explorer era.
- The open and stylish public living spaces offer views over the fast-flowing Zambezi River – often bristling with swimming elephant – and beyond to the breathtaking Rift Valley escarpment on the Zambian side.

CAMP FIRE & TENT

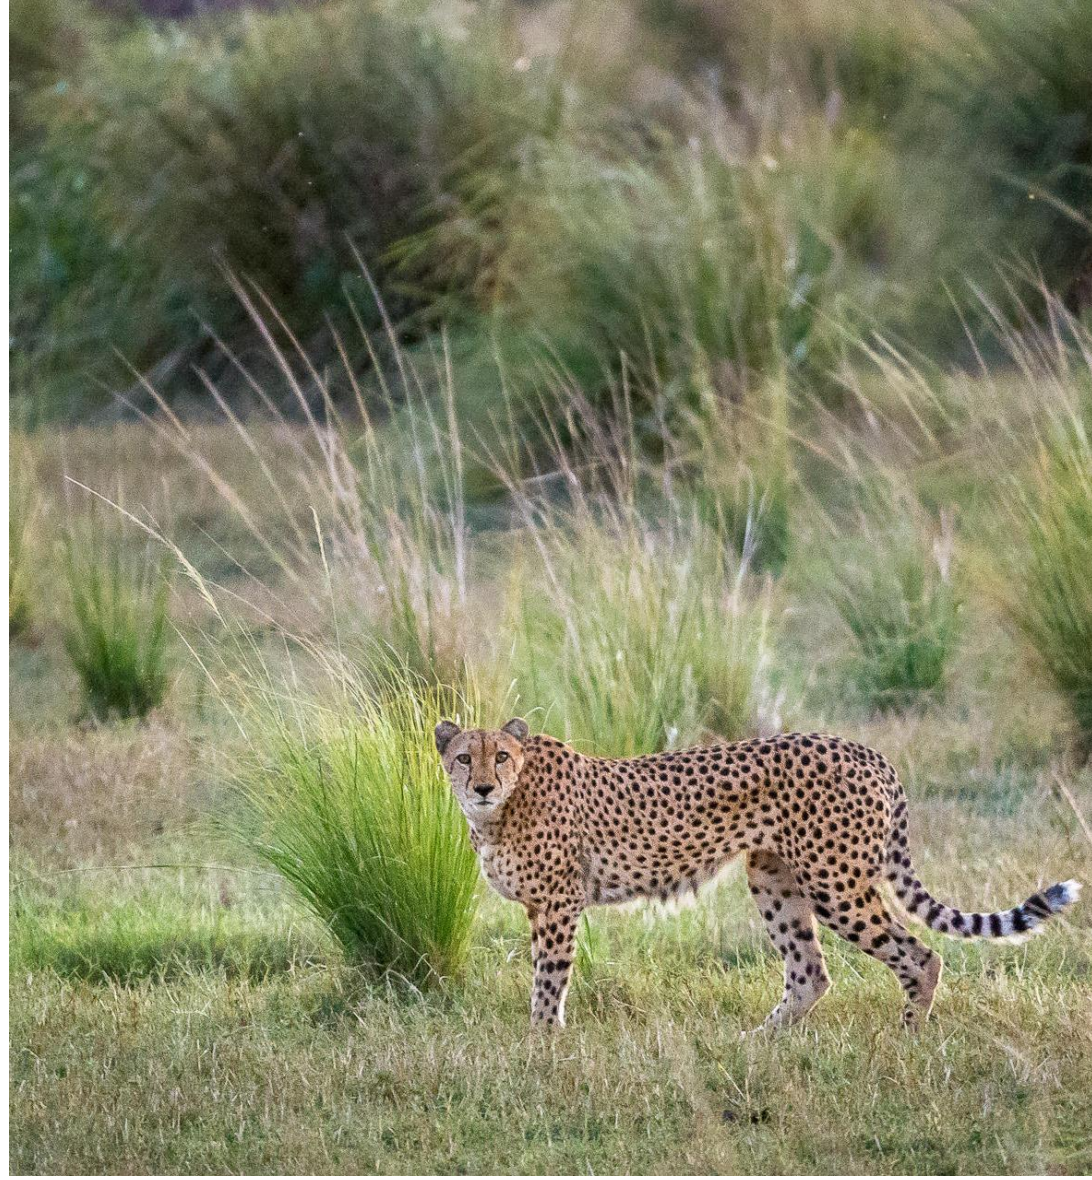

You did everything superbly well but the people we met were all very special - wanted to do anything to make our stay memorable. We were lucky to be looked after by them. The chef produced amazing food! Thank you so much.
