

An aerial photograph of a vast, green, marshy landscape. A winding river flows through the center of the frame. In the middle of the river, a small boat with several people is visible. The landscape is covered in dense, green vegetation, with some areas of brown, dry grass. The river is a deep blue color, contrasting with the green surroundings.

ABOUT THE AREA

This part of the Okavango Delta is renowned for exceptional game viewing, particularly in summer when all species congregate naturally here. With its mix of habitats attracting large herds, followed by predators in vast numbers and variety, discover why Mombo is truly the ‘Mother of all Camps’. Pristine floodplains, meandering channels and palm-fringed islands make up the Eden that is the Okavango Delta.

WILDERNESS

DUMATAU

WILDERNESS DUMATAU

The story of our business is one best told in two halves:
Conservation and Hospitality. These halves are equally important
and deeply linked

HOSPITALITY

By bringing guests to discover the
beating pulse of Earth's ultimate
untamed places...

Our hospitality success dictates our
conservation impact efforts...

The more guests and partners we
involve in our purpose...

CONSERVATION

...we impact communities through park lease
fees, employment and by using locally
sourced produce in our camps.

...as it enables us to support educational
programmes, human-wildlife conflict
and ongoing empowerment

...the greater the impact we can have in helping
to protect these iconic and wild destinations.

OUR IMPACT ON CONSERVATION AND COMMUNITIES

Across the majority of our areas of operation, limited access to education and economic opportunity lead to over-reliance on the environment and threats to biodiversity conservation. Our Impact framework seeks to address these challenges through three pillars.

THREE PILLARS OF OUR IMPACT STRATEGY

EMPOWER

Employment and local small-business support reduce reliance on natural resources. This mitigates the knock-on impact on wilderness and wildlife

EDUCATE

Children in the Wilderness runs environmental education programmes in partner schools to improve economic opportunity, family resilience and support for conservation.

PROTECT

The Wilderness Trust NPO supports projects addressing the needs of existing wildlife populations, seeks solutions to conserve endangered species and provides education for communities.
