

Greetings from Africa!

This month we have something remarkable for wildlife photographers, whether amateur or professional. **From 8 – 18 November 2015**, a Great Wilderness Journey will be guided by one of our renowned wildlife photographers and field guide trainers, Onalethata Basimane. Born and bred in Maun, Ona is an outstanding and inspiring guide whose passion for the natural world started at a young age. Not only has his photographic talent awarded him an invitation to speak at the Wild Shots Wildlife Photography symposium, but it has also made him a great ambassador for his country and led him to focus his interests on animal behaviour and behavioural ecology. In this once-in-a-lifetime opportunity, Ona will be guiding and hosting just six people on a **Great Wilderness Journey** Exploration, focusing on wildlife photography including talks, and reviewing and critiquing guest photographs along the way.
