

April 2017

Greetings from Africa!

We are rapidly approaching the inundation period in Botswana and what better way to experience it than to join us on an Exploration!

From June to October, we offer you the opportunity to experience two unique wilderness areas which have shaped the southernmost fault lines in Africa's iconic Great Rift Valley. [Into the Wilderness](#) allows guests to explore the fascinating and tranquil wetland of the Okavango before heading into the riverine woodlands of the Linyati River, where general game such as impala, zebra and kudu can be seen heading to the life-giving water followed by their predators, including wild dog and leopard. The area is also popular for its large concentration of elephant.

Features of this Exploration:

- Combination of two fascinating private wilderness areas which houses a variety of habitats and wildlife viewings day and night.
- Activities include game drives, boating, mokoro trips and walks.
- Exceptional views of the Okavango Delta on light aircraft transfers.
