

February 2018

Greetings from Africa!

A private guide is a seasoned professional with an affluence of knowledge, offering a highly bespoke service ensuring enjoyment, comfort and safety.

We have allocated our finest [private guides](#) to each of our scheduled explorations journeys to focus and cater to all of our guest's specific photography or wildlife interests. Our guides are enthusiastic, skilled and highly accomplished local individuals who strive to make each journey as seamless and informative as possible from start to finish.

All of our private guides have a comprehensive knowledge of their environment and the surrounding fauna and flora. They have a deep understanding of the conservation efforts and concerns of their area and can speak with authority on the geology, astronomy, history and cultures. All you need to do is book your Explorations' scheduled departure and advise us of any special requirements which we can share with the allocated guide prior to arrival in order for the guests expectation to be met and exceeded throughout their journey.

#### INFO TO REMEMBER

- Our Explorations journeys take place in mostly private concessions and wildlife areas exclusive to Wilderness Safaris guests
- One guide leads the trip throughout the itinerary greatly enhancing camp to camp itineraries and avoiding any overlap of information
- Many of our guides are skilled photographers and can assist guests in taking amazing wildlife photographs.
- Our trips sell to a maximum of 7 guests per departure to ensure that each guest has a 'window-seat'.
- No single supplement is charged for single travellers, however, please note that we still require a minimum of 2 guests on a departure to run a trip.
- Tailor-made Explorations for private groups and to meet specific and specialist requirements are possible.

Please contact your Journey specialist to secure your space and for more information on the exciting journeys on offer for 2018.
