PRIVATE GUIDES

EXPLORE YOUR PRIVATE GUIDE OPTIONS

Our journeys allow guests to discover remote and pristine areas that are home to diverse and fascinating wildlife, while our highly skilled and knowledgeable guides are equipped with years of experience in the safari industry.

Why have a Wilderness Safaris Private guide

- **One guide** leads the group throughout the itinerary greatly enhancing camp-to-camp itineraries and avoiding any overlap of information.
- Their wealth of knowledge in their specialist areas allows them to highlight relevant information, adding continuity and adapting a safari to **meet a guest's specific interests** while pre-empting their expectations.
- Many are skilled photographers and can **assist guests in taking amazing wildlife photographs.**
- Many other skills include **birding, tracking and walking safaris** while others can lead multi-country safaris or are **multilingual** so can guide in a guest's own language.
- They are excellent with children on safari, **amusing and educating the kids.**
- Many **repeat guests request the same guide** they have built a relationship with on previous trips.
- Wilderness Safaris guides **respect the direct relationships** between agents and their clients.

Our guides

"I was utterly impressed by the depth of his biodiversity knowledge. Whether geology or behavioural patterns of animals – from small insects to big predators. His humour and storytelling aptitude is phenomenal. It was not only about guiding, but educating us to pass on the knowledge."
