## ABOUT

---

Untamed is an invitation to reconnect with the rhythm of the land, to breathe deeply, and to surrender to nature's embrace. At its core, this curated home, body and skincare collection weaves together the ancient wisdom of botanicals that have flourished for millennia.

A fresh citrus aroma uplifts the senses, while the fynbos oil of Cape May evokes a herbaceous aroma. Chamomile, Vetiver, Petitgrain and Sage provide deep relaxation, Juniper purifies and revitalises the skin, and Namibian Myrrh brings a deep, resinous warmth. This wild, grounding fusion of ingredients nourishes, refreshes and restores, immersing you in the essence of Wilderness.

**This is more than a fragrance. This is Africa, distilled.**
