A man and two children are gathered in a lush green savanna landscape, surrounded by large, gnarled trees. The man, wearing a light-colored shirt and a cap, is standing in the center, clapping his hands. To his left, a young girl with blonde hair is also clapping. To his right, another young girl with brown hair is clapping. They are positioned around three large, cylindrical drums made of wood and animal skin. The scene is set in a grassy field with a large tree trunk on the left and a large, fallen log in the foreground. The background shows more trees and a clear sky.
