

MORE THAN A WILDERNESS CONNECTION...

Since 1991, Wilderness Air has maintained a reputation for steadfast operations and excellent guest service.. Today Wilderness Air not only flies between key regional air bases such as Victoria Falls, Livingstone and Kasane, our carefully thought-out circuits have enhanced our guest experience in such a way that guests can enjoy a morning activity in the Okavango Delta and be in Hwange or the Kafue for their afternoon activity; or even at one of our partner camps. And by optimising each aircraft's movements, we are reducing our carbon footprint, and our guests spend as little time as possible waiting for connecting flights between regions.
