

REVISION OF WILDERNESS AIR BOTSWANA FLYING CIRCUIT, WITH EFFECT FROM 1 JUNE 2017

Lower Rates for 2017 & 2018

- All provisional bookings or quotes for 2017 & 2018 as at 31 May 2017, will be re-priced at the new rates.
- All 2018 bookings, regardless of status, will be re-priced at the new rates.
- All existing confirmed 2017 bookings as at 31 May, travelling between 1 June 2017 to 10 January 2018 (end of current rate season) remain as is.

Third Party

- We have added a selection of third party camps to our circuit, accessed via 5 airstrips.
- Existing confirmed bookings will remain as is, while provisional or new bookings to these camps, will be re-booked and re-priced on the Wilderness Air Botswana circuit.
- All bookings to third party camps not included on the new circuit, will still be booked with our preferred partners in Botswana.

Simplified Circuit

- We have simplified the circuit to match our rates as published i.e. flying to areas, not specific airstrips.
- There are no more set times except for departures ex Maun and Kasane. Guests will be advised of flight times the night prior in camp.
- The flying window is between 10:30 and 16:00.
- 3rd stop is your final destination i.e. there may be two or less stops between point A and point B.
- A new sector has been added - A3/A3 for the charter hop between Chobe and Selinda.

Effect on Bookings

- All existing confirmed bookings travelling between 1 June and 31 August will stay as they are on the previous circuit. Note therefore that for bookings travelling over this 3 month period, the times stipulated in the voucher or itinerary may not be adhered to. Wilderness Air Botswana will endeavour to match these times where possible, however, there may be occasions where guests will be flown according to the new simplified circuit in order to maximise efficiencies and reduce our carbon footprint.
- All new or provisional bookings travelling from 1 June, will be booked on the new circuit.
- For travel from 1 September 2017, ALL bookings will be booked on the new circuit.

Additional Notes

- Replacing the previous golf carts, we have two new Quantum buses at Maun Airport (with air-conditioners/heaters) to shuttle guests between our aircraft and the terminal building.
- You do not have to have a Wilderness Safaris camp in the itinerary to make use of our flying circuit.
- The 20kgs baggage allowance stipulated in our terms & conditions for Wilderness Air INCLUDES carry-on luggage – back-packs, camera equipment, sleep apnoea machines, etc.
