in collaboration with

**OLYMPUS**

Dear Traveller

Wilderness Safaris and Olympus have joined forces to use their high-end services and combined passion for wildlife photography to ensure the ongoing conservation of Africa's remote wilderness areas whilst contributing to the empowerment of local people through conservation education.

We are proud to partner with a likeminded company such as Olympus. Together we not only share a love of wildlife photography but also a similar set of values and ideals about making a bigger, positive impact on the world and our place in it.

As part of this unique collaboration, Olympus have provided lightweight and compact OM-D photography equipment to Wilderness Safaris guides and managers, and have conducted training workshops to ensure that our guides are able to provide the best insights and recommendation to our guests. State-of-the-art cameras are available at selected Photo Hub camps across all regions for you to try during game drives and in our hides – ideal for practicing bird photography and trying out a number of the new and impressive features offered by the camera.

We are thrilled also to announce that together with Olympus and Tudortech – Olympus' official sales partner in South Africa – we can offer you an exclusive discount code that will entitle you to a 10% discount on a wide range of Olympus cameras, lenses and binoculars, with Olympus donating 10% of the total value of each purchase to the Children in the Wilderness Scholarship Fund.

So take a look at the excellent range of equipment and price list attached.

To claim your discount or make a purchase please email me on [ShayneR@wilderness.co.za](mailto:ShayneR@wilderness.co.za).

Sincerely,  
Shayne Richardson-Bayly

## 8x42 PRO / 10x42 PRO

The PRO binoculars for nature lovers stand out with multi-coated lenses and prisms for crystal-clear, extra bright and sharp high-resolution images even in low light. Advanced coating technologies ensure superior transmittance across the visible range resulting in lifelike images with more natural colours. A waterproof, anti-fogging construction allows the use in harsh environments under tough nature conditions.

The closest focusing distance of 1.5 m dramatically broadens subjects for observation. Superb ergonomic controls and grip guarantees maximum comfort and steadiness when observing.

For more information about this and other products and a complete list of specifications visit [Olympus.eu](http://Olympus.eu)

### PRODUCT HIGHLIGHTS

- 8x / 10x Magnification
- 42 mm Objective lens diameter
- Multi-coated lenses and prisms for a bright, clear field of view with superior transmittance
- ZERO Coating for reduced ghosting and flares
- Extra-low dispersion (ED) lens for high-resolution and high-contrast images
- Closest focusing distance of 1.5m for close-up observation of small subjects
- Waterproof, anti-fogging construction for use in harsh environments
- Simple, refined design and ergonomic controls for maximum comfort and functionality
- Flip-down objective lens cap to prevent lens cap loss

## PEN E-PL9

Better photographs with no fuss and a beautiful camera to take them with- this is the essence of the E-PL9 series. This gem of a camera is aimed squarely at anyone who is hoping to take photography more seriously but wants to ease their way in. Beautifully made, the E-PL9 is smaller, lighter and a whole lot prettier than conventional system cameras yet it delivers beautiful results.

MAKE A BIGGER

## *Positive Difference*

We are delighted that your purchase not only adds to your personal enjoyment, but also has a positive impact on the education of rural children in Africa, facilitated by our non-profit partner Children in the Wilderness.

Children in the Wilderness aims to facilitate sustainable conservation through leadership development and education of rural children in Africa. Thus, with your purchase, Olympus will contribute a portion of your purchase value to a scholarship programme that provides secondary education for children living on the outskirts of some of Africa's most pristine and remote wilderness areas – places in which many of our Wilderness Safaris camps are situated. These scholarships help children to receive a higher education, contributing to a brighter future for them and the local communities they live in.

With your purchase, you will receive a donation confirmation with the amount that Olympus has contributed towards Children in the Wilderness Scholarship Fund.

To find out more about the programme and how Olympus and Children in the Wilderness and Wilderness Safaris are working together, please visit [www.childreninthewilderness.com](http://www.childreninthewilderness.com) or [www.wilderness-safaris.com](http://www.wilderness-safaris.com)
